EXPERIENCE

Web Developer

2025–now

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Implemented responsive layouts, animations, navigation, and interactive UI components.
- Managed source code and project versions using Git and GitHub.
- Deployed the website using GitHub Pages and worked on custom domain configuration.

Project Manager & Lead Developer

2026

Academic Project | Davao Soup Kitchen & Food Bank Website

- Personally handled nearly all of the website's coding and implementation, including the front-end structure, styling, and functionality.
- Troubleshoot coding issues and integrated different website components into the final project.
